ARTICLE CODE	DESCRIPTION
MEL-3117	Heated container Thermax 63l - 540x325x360mm - Melform AF7 - analog version

BRAND

Melform

PRODUCT DESCRIPTION

Heated holding container with front door opening and large capacity for safe transport of hot products
Rotomoulded monostructure moulded inner and outer walls in impact-resistant polyethylene
Suitable for intensive and professional daily use
Insulation core: injected high-density polyurethane free from CFC and HCFC
Front thermostat allows setting and monitoring of the internal temperature during transport
Heating door is exclusively intended for maintaining the temperature
It is recommended to load products at a temperature of at least 75°C for optimal performance
To prevent permanent damage, the heating unit must not heat an empty container for longer than 30 minutes
For maximum thermal efficiency of the heating door: fully load the container and avoid prolonged openings during multiple deliveries
7 regularly distributed runners
Suitable for transporting food in GN1/1 gastronorm containers of different heights
Optional grid: WMC-7100
Door can be opened up to 240° and removed for easy cleaning
Integrated handles on the container and door are designed to ensure safe and easy movement
Perfectly stackable
Stacked transport possible with separate temperature control per container

SPECIFICATIONS

Length (mm)	540
Width (mm)	325
Height (mm)	360
Net weight (kg)	13.2
Color	Blue Grey
